SECTION 7: ETHNIC ORIGIN

Please check one of the following boxes. This information is optional, not mandatory, but it does help this university in making admission decisions that will help create greater diversity on campus, and, well, to be honest, keep out those we think, well, have done just “too” well after coming to this country. I mean, come on, Vietnamese people! You shoulda stayed over there to prove Jane Fonda et al were right, but noooooo, you had to overcome unbelievable odds to just come here, but then to have the gall to Americanize? And what about you Indians? Not Native Americans, I mean Indians from India? Bobby Jindahl? What the hell were you thinking? And besides, there’re too many of you at universities anyway. Anyhow, people who choose from the left column will ONLY be considered for admission if there are not enough applicants who fit the right column. (As in “correct,” get it? Hah!) We always need some people on campus to hold up as an example of what NOT to be for our true believers and fellow travelers.

And if you DON’T answer, well, we may CHOOSE to reject you!
